Introduction

This report presents the basic trends in domestic travel by Georgian residents for the period of third quarter of 2017. Figures include the results of a household survey conducted by the National Statistic Office of Georgia.

Domestic travel concerns residents of Georgia travelling within the country for a given period, and involves people spending money on activities and accommodation outside of their normal routine and contributing to local economies (Box 1).

The main areas of interest in this report include trips for leisure, business, visiting friends and relatives (VFR) purposes, expenditure during the trip, and other variables.

Significance of domestic travel

Domestic tourism generates significant economic activity and employment in the world, including in Georgia.

Domestic travel spending generated 71.8% of direct Travel & Tourism GDP in 2016, compared with 28.2% for visitor exports (i.e. foreign visitor spending or international tourism receipts)\(^1\).

How many domestic trips do Georgians take?

Georgians took a total of 3.56 million domestic trips in third quarter of 2017, representing 4.2% decrease over the same period of last year (Figure 1).
