

## Introduction

This report presents basic characteristics of international travel to Georgia for the period of first quarter of 2016. The data is provided by National Statistics Office of Georgia.

The sphere of the main interest of the report includes trips for holiday, business, visiting friends and relatives (VFR) purposes, expenditure during the trip and other reasons.

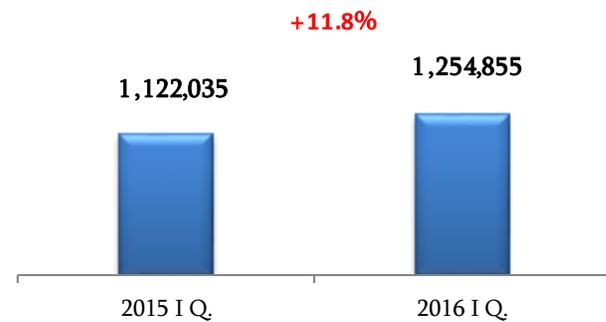

## Significance of International Travel

International travel generates significant economic activity and employment in the world. Its direct contribution to World GDP and employment in 2016 was US\$ 2.3 trillion and it supported 109 million jobs. Taking account of its combined direct, indirect and induced impacts, total economic contribution in 2016 was US\$ 7.6 trillion in GDP, 292 million in jobs; US\$ 806 billion in investment; and US\$ 1.4 trillion in exports. This total contribution represents 10.2% of World GDP in 2016, 1 in 11 jobs, 4.4% of total economy investment and 6.6% of world exports.<sup>1</sup>

## International Traveler Trips

International traveler<sup>2</sup> trips in Georgia have been growing rapidly in recent years. In first quarter of 2016, they reached a record number of 1,254,855, representing an annual growth rate of 11.8%.

Figure 1: International Traveler Trips by years

In first quarter of 2016 the number of international visitor<sup>3</sup> trips to Georgia amounted to 988,857. The majority of trips conducted by international visitors (excluding nonresident citizens of Georgia), 87%, were from neighboring countries. Only 13% were from other countries. Azerbaijan was the leader in terms of international visitor trips - 240,070 (a decrease of 1.6%), while Russia occupied first place in terms of growth (+14,805). There was also a significant growth in the number of trips by Iranian (+10,708), Ukrainian (+3,897) and Philippine (+3,136) visitors. This growth was primarily the result of new direct flights, press trips and marketing campaigns administered by the Georgian National Tourism Administration.

<sup>1</sup> Economic Impact of Travel and Tourism 2013. Annual Update. World Travel and Tourism Council

<sup>2</sup> International traveler is someone who moves between different geographic locations for any purpose and any duration. It excludes foreign citizens who are Georgian residents and includes Georgian citizens who are foreign residents.

<sup>3</sup> An international visitor is a traveler taking a trip to a main destination outside his/her usual environment, for less than a year, for any purpose (business, leisure or other personal purpose) other than to be employed by a resident entity in the country or place visited. The usual environment of an individual, a key concept in tourism, is defined as the geographical area within which an individual conducts his/her regular life routines. For defining the usual environment in Georgia, travelers conducting eight or more trips are excluded from the data.

### Methodology

This report is based on the survey data provided by National Statistics Office of Georgia. The data was gathered via a survey using quantitative research techniques based on the recommendations of the United Nations World Tourism Organization.

Interviews were conducted with international visitors aged 15 years or older who were leaving Georgia. The interviews took place at the checkpoints of each type of border (land, airport, railway and port).

Table 6: Sample Size by Borders

Type	Border	Sample Size
Airport	Airport Tbilisi	1572
Airport	Airport Batumi	240
Airport	Airport Kutaisi	300
Land	Sarpi	4392
Land	Vale	252
Land	Ninotsminda	432
Land	Sadakhlo	1488
Land	Tsiteli Khidi	1752
Land	Tsodna	504
Land	Kazbegi	1068

The document reports statistics of data gathered through 12,000 interviews. A stratified systematic sample method was applied to select respondents. The border checkpoint type was taken as a stratification variable. Data of border checkpoints was provided by ministry of internal affairs, information-analytical department. The final sampling unit was a resident of a foreign country aged 15 years and over. A brief description of the methodology is summarized below:

Table 7: Description of Survey Methodology

Survey method	Quantitative research
Survey technique	Face to face interviews
Survey areal	Georgia
Target group	International visitors aged 15 years or older
Sample size	12,000 respondents
Duration of interview	10-12 minutes

The data according to the country of residence is analyzed separately for neighboring countries – Turkey, Russia, Azerbaijan and Armenia. Other countries are grouped in three categories – Central and Eastern Europe, Other Europe and Other Countries.

In the category “Central and Eastern Europe” are grouped the following countries: Belarus, Bulgaria, Czech Republic, Estonia, Hungary, Kazakhstan, Kyrgyzstan, Latvia, Lithuania, Moldova, Poland, Romania, Slovakia, Tajikistan, Turkmenistan, Ukraine and Uzbekistan.

In the category “Other Europe” the following countries are grouped: Austria, Belgium, Croatia, Denmark, Finland, France, Germany, Greece, Ireland, Israel, Italy, Malta, Norway, Netherlands, Spain, Sweden, Switzerland and the United Kingdom.

Those countries that were not placed in any of the above mentioned groups, due to small samples, were consequently grouped as “Other” Countries.
